

CHEMICAL SUPPLY

Peterson provide the complete supply and transport of chemicals and waste from one site to improve efficiency, reduce your costs and minimise transport time. You can choose to use just one of our services or choose to streamline your process by allowing Peterson to coordinate our services to meet your requirements. Trust Peterson to handle your chemical needs.

TANK RENTAL

Rent our specialist, portable tanks which exceed industry safety standards with unique features and enhancements. Our fleet of 250 tanks come in various specifications and can carry various production chemicals and dangerous goods.

FUEL SERVICES

(Bio)Diesel, GTL and aviation fuel supplied and delivered using our specialist portable tanks for offshore requirements.

PRODUCTION CHEMICAL SUPPLY

Supply and delivery of production chemicals from our quayside. Our team of dangerous goods specialists together with our safety portable tanks can transport almost any chemical.

TANK CLEANING

Our onsite tank cleaning facilities allow clients to improve efficiency through reduced transportation time and costs.

WAREHOUSING AND STORAGE

Our Den Helder quayside operations include bulk storage and chemical warehousing, minimising transportation costs and providing a more efficient logistics service.

EXPERTS IN DANGEROUS GOODS

We have certified dangerous goods safety advisors and trained personnel on various legislations such as IMDG (transport by sea), ADR (transport by road), waste legislation and more.

PRINTING FACILITY

Printing of high quality delivery marks and placards that conform to IMDG/ADR and other transport legislations as well as designing and producing customised labels.

WASTE HANDLING

We handle, store and transport waste materials, adhering to dutch environmental legislation.

PETERSON 

CHEMICAL SUPPLY

TRUST WELL PLACED

Peterson has a strong track record for exceeding industry standards when providing supply and delivery of production chemicals for the energy sector.

Innovation is at the core of our business and our chemical supply services are no different. Our unique safety containers have a number of features to optimise safety and operations on the quayside, offshore and during transportation. Our portable tanks not only comply to the latest industry standards but go one step further to exceed them, this is because safety of our workforce (and yours) is one of our core values.

Our Den Helder quayside is the ideal location to service the Southern North Sea and the onsite facilities allow Peterson to provide a complete and integrated service with minimal transportation. The ability to carry out comprehensive chemical services from one quayside improves efficiency, increases flexibility and reduces cost, as well as creating the ability to meet 'just-in-time' deliveries.

This coordinated service means less time and money is spent on transit. Whether it's chemical supply or waste management services you require, Peterson can improve the efficiency of your processes by taking care of every step of your chemical and waste management. We make sure you get the chemical you need, where you need it, when you need it.

FUEL- AND CHEMICAL TRANSPORT TANKS

Suitable for most common production chemicals used in the energy industry and in compliance with the latest industry standards.

XS200 SERIES
1200 LTR (MULTIPURPOSE) CHEMICAL TANK

- Tare Weight 1100KG
- Max Gross Weight 3500KG
- Capacity approximately 1200 litres
- Dimension (LxWxH) 1.37mtr x 1.37mtr x 2.03mtr

H100 SERIES
2000 LTR JET A-1 (AVIATION FUEL) TANK

- Tare Weight 1670KG
- Max Gross Weight 4070KG
- Capacity approximately 2000 litres
- Dimension (LxWxH) 1.60mtr x 1.60mtr x 2.30mtr

H500 SERIES
3000 LTR JET A-1 (AVIATION FUEL) TANK

- Tare Weight 1790KG
- Max Gross Weight 6500KG
- Capacity approximately 3000 litres
- Dimension (LxWxH) 2.00mtr x 2.00mtr x 2.24mtr

X-SERIES
3000 LTR MULTIPURPOSE CHEMICAL TANK

- Tare Weight 1790KG
- Max Gross Weight 6500KG
- Capacity approximately 3000 litres
- Dimension (LxWxH) 2.00mtr x 2.00mtr x 2.24mtr

PSL SERIES
5000 LTR MULTIPURPOSE HORIZONTAL CHEMICAL TANK

- Tare Weight 3400KG
- Max Gross Weight 12000KG
- Capacity approximately 5000 litres
- Dimension (LxWxH) 2.99mtr x 2.44mtr x 1.79mtr

OUR PORTABLE TANKS MEET AND EXCEED INDUSTRY SAFETY STANDARDS

- BS EN12079 / DNV2.7-1 approved
- Heavy duty level gauge available to determine product quantity
- Equipped with energy industry standard stainless steel 2" open camlock and 2" / 2.5" drybreak coupling (male)
- Open stainless steel forklift pockets to prevent loosening rust plates and possible accumulated gravel, reducing potential 'loose objects'
- 6-point hand fastening man-lid which requires no tools, reducing the potential of leaving behind 'loose objects'
- Placard brackets and contrasting color schemes for maximum visibility of tank identification number, proper shipping name and dangerous goods safety signage
- Air vent can be operated from the ground without having to climb on top of the tank
- Certified lifting equipment
